

PORT OF LIVERPOOL

Fuel Surcharge Notice

Following the recent decrease in the cost of diesel, we hereby advise that, with effect from 29th December 2008, the level of the fuel surcharge levied previously in respect of pilotage services requiring the use of a pilot launch will be reduced.

The fuel surcharge then applicable will be determined on each occasion by reference to the pilot station at which the pilot boards/disembarks the pilot launch, thus:

At Liverpool Bar Station: £22.00 per boarding or landing

At Lynas Station: £7.32 per boarding or landing

The fuel surcharge will be charged in addition to all other applicable pilotage charges and will continued to be reviewed on a regular basis.

9th December 2008
